### Suspension Procedures

#### In-School Suspension

The Superintendent or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.
2. Students are supervised by licensed school personnel.
3. Students are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.

#### Out-of-School Suspension

The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
  - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
  - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
  - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
  - d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
  - e. Depending upon the length of the out-of-school suspension, include the following applicable information:
    - i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
      - a) A threat to school safety, or
      - b) A disruption to other students' learning opportunities.
    - ii. For a suspension of 4 or more school days, an explanation:

- a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
  - b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
  - c) That the student's continuing presence in school would either:
    - i) Pose a threat to the safety of other students, staff, or members of the school community, or
    - ii) Substantially disrupt, impede, or interfere with the operation of the school.
  - iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
  6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

### Expulsion Procedures

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
  - a. Include the time, date, and place for the hearing.
  - b. Briefly describe what will happen during the hearing.
  - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
  - d. List the student's prior suspension(s).
  - e. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
  - f. Ask that the student or parent(s)/guardian(s) or attorney inform the Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney's name and contact information.
2. Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from the Dept. of Human Services to consult with the Board.
3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student. The student and his or her parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer's report, the Board shall decide the issue of guilt and take such action as it finds appropriate.
4. If the Board acts to expel the student, its written expulsion decision shall:
  - a. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
  - b. Provide a rationale for the specific duration of the recommended expulsion.
  - c. Document how school officials determined that all behavioral and disciplinary interventions have been exhausted by specifying which interventions were attempted or

whether school officials determined that no other appropriate and available interventions existed for the student.

- d. Document how the student's continuing presence in school would (1) pose a threat to the safety of other students, staff, or members of the school community, or (2) substantially disrupt, impede, or interfere with the operation of the school.

### Bus Conduct

All students must follow the District's *School Bus Safety Rules*.

### School Bus Suspensions

The Superintendent, or any designee as permitted in the School Code, is authorized to suspend a student from riding the school bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Prohibited student conduct as defined in School Board policy, 7:190, *Student Behavior*.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.
5. Repeated willful disobedience of a directive from a bus driver or other supervisor.
6. Such other behavior as the Superintendent or designee deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The District's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

### Academic Credit for Missed Classes During School Bus Suspension

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student's parent or guardian to notify the school that the student does not have alternate transportation.

### Electronic Recordings on School Buses

Electronic visual and audio recordings may be used on school buses to monitor conduct and to promote and maintain a safe environment for students and employees when transportation is provided for any school related activity. Notice of electronic recordings shall be displayed on the exterior of the vehicle's entrance door and front interior bulkhead in compliance with State law and the rules of the Illinois Department of Transportation, Division of Traffic Safety.

Students are prohibited from tampering with electronic recording devices. Students who violate this policy shall be disciplined in accordance with the Board's discipline policy and shall reimburse the School District for any necessary repairs or replacement.

### Misconduct by Students with Disabilities

#### Behavioral Interventions

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The District will establish and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities. The committee shall review the State Board of Education's guidelines on the use of behavioral interventions and use them as a non-binding reference. This policy and the behavioral intervention procedures shall be furnished to the parents/guardians of all students with individual education plans within 15 days after their adoption or amendment by, or presentation to, the Board or at the time an individual education plan is first implemented for a student; all students shall be informed annually of the existence of this policy and the procedures. At the annual individualized education plan review, a copy of this policy shall be given to the parents/guardians. The policy and procedures shall be explained. A copy of the procedures shall be available, upon request of the parents/guardians.

#### Discipline of Special Education Students

The District shall comply with the provisions of the Individuals With Disabilities Education Act (IDEA) when disciplining students. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability. Any special education student whose gross disobedience or misconduct is not a manifestation of his or her disability may be expelled pursuant to the expulsion procedures, except that such disabled student shall continue to receive educational services as provided in the IDEA during such period of expulsion.

A special education student may be suspended for periods of no more than 10 consecutive school days each in response to separate incidents of misconduct, regardless of whether the student's gross disobedience or misconduct is a manifestation of his or her disabling condition, as long as the repeated removals do not constitute a pattern that amounts to a change in placement (considering factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another) and provided that such student receives educational services to the extent required by the IDEA during such removals.

Any special education student may be temporarily excluded from school by court order or by order of a duly appointed State of Illinois hearing officer changing the student's placement to an appropriate interim alternative educational setting for up to 45 days, if the District demonstrates that maintaining the student in his or her current placement is substantially likely to result in injury to the student or others.

A special education student who has carried a weapon to school or to a school function or who knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function may be removed from his or her current placement. Such a student shall be placed in an appropriate interim alternative educational setting for no more than 45 days in accordance with the IDEA. The length of time a student with a disability is placed in an alternative educational setting must be the same amount of time that a student without a disability would be subject to discipline.

### Conduct Code for Participants in Extracurricular Activities

The Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with School Board policy. The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants that failure to abide by it could result in removal from the activity. The conduct code shall be reviewed by the Building Principal periodically at his or her discretion and presented to the Board.

Participants in extracurricular activities must abide by the conduct code for the activity and Board policy 7:190, *Student Behavior*. All coaches and sponsors of extracurricular activities shall annually review the conduct code with participants and provide participants with a copy. In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

### Extracurricular Drug and Alcohol Testing Program

The District maintains an extracurricular drug and alcohol testing program in order to foster the health, safety, and welfare of its students. Participation in extracurricular activities is a privilege and participants need to be exemplars. The program promotes healthy and drug-free participation.

Each student and his or her parent(s)/guardian(s) must consent to having the student submit to random drug and alcohol testing in order to participate in any extracurricular activity. Failure to sign the District's "Random Drug and Alcohol Testing Consent" form will result in non-participation.

If a test is *positive*, the student will not participate in extracurricular activities until after a *follow-up* test is requested by the Building Principal or designee and the results are reported. The Building Principal or designee will request a *follow-up* test after such an interval of time that the substance previously found would normally be eliminated from the body. If this *follow-up* test is negative, the student will be allowed to resume extracurricular activities. If a *positive* result is obtained from the *follow-up* test, or any later test, the same previous procedure shall be followed.

The Superintendent or designee shall develop procedures to implement this policy. No student shall be expelled or suspended from school as a result of any verified positive test conducted under this program other than when independent reasonable suspicion of drug and/or alcohol usage exists. This program does not affect the District policies, practices, or rights to search or test any student who at the time exhibits cause for reasonable suspicion of drug and/or alcohol use.

### Performance Enhancing Drug Testing of High School Student Athletes

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance enhancing substance on its banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition. IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board policy 7:190, *Student Behavior*.

### Student Support Services

The following student support services may be provided by the School District:

1. Health services supervised by a qualified school nurse. The Superintendent or designee may implement procedures to further a healthy school environment and prevent or reduce the spread of disease.
2. Educational and psychological testing services and the services of a school psychologist as needed. In all cases, written permission to administer a psychological examination must be obtained from a student's parent(s)/guardian(s). The results will be given to the parent(s)/guardian(s), with interpretation, as well as to the appropriate professional staff.
3. The services of a school social worker. A student's parent/guardian must consent to regular or continuing services from a social worker.
4. Guidance and school counseling services.
5. A liaison to facilitate the enrollment and transfer of records of students in the legal custody of the Illinois Department of Children and Family Services when enrolling in or changing schools.

The Superintendent or designee shall develop protocols for responding to students with social, emotional, or mental health needs that impact learning ability. The District, however, assumes no liability for preventing, identifying, or treating such needs.

This policy shall be implemented in a manner consistent with State and federal laws, including the Individuals with Disabilities Education Act, 42 U.S.C. §12101 et seq.

### Exemption from Physical Education

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act, prevents his or her participation in the physical education course.

State law prohibits the Board from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated in 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

Students in grades 7 and 8 may submit a written request to the Building Principal to be excused from physical education courses because of his or her ongoing participation in an interscholastic or extracurricular athletic program. The Building Principal will evaluate requests on a case-by-case basis.

The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1. The time of year when the student's participation ceases;
2. The student's class schedule; and
3. The student's future or planned additional participation in activities qualifying for substitutions for physical education as outlined in policy 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

### Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed *School Medication Authorization Form (SMA Form)* is submitted by the student's parent/guardian.

No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

### Self-Administration of Medication

A student may possess and self-administer an epinephrine injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed an *SMA Form*. The Superintendent or designee will ensure an Emergency Action Plan is developed for each self-administering student.

A student may self-administer medication required under a *qualifying plan*, provided the student's parent/guardian has completed and signed an *SMA Form*. A qualifying plan means: (1) an asthma action plan, (2) an Individual Health Care Action Plan, (3) an Ill. Food Allergy Emergency Action Plan and Treatment Authorization Form, (4) a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, or (5) a plan pursuant to the federal Individuals with Disabilities Education Act.

The District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

### School District Supply of Undesignated Asthma Medication

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated asthma medication in the name of the District and provide or administer them as necessary according to State law. *Undesignated asthma medication* means an asthma medication prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated asthma medication to a person when they, in good faith, believe a person is having *respiratory distress*. Respiratory distress may be characterized

as *mild-to-moderate* or *severe*. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

#### School District Supply of Undesignated Epinephrine Injectors

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated epinephrine injectors in the name of the District and provide or administer them as necessary according to State law. *Undesignated epinephrine injector* means an epinephrine injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

#### School District Supply of Undesignated Opioid Antagonists

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated opioid antagonists in the name of the District and provide or administer them as necessary according to State law. *Opioid antagonist* means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration. *Undesignated opioid antagonist* is not defined by the School Code; for purposes of this policy it means an opioid antagonist prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law. See the website for the Ill. Dept. of Human Services for information about opioid prevention, abuse, public awareness, and a toll-free number to provide information and referral services for persons with questions concerning substance abuse treatment.

#### School District Supply of Undesignated Glucagon

The Superintendent or designee shall implement 105 ILCS 145/27 and maintain a supply of undesignated glucagon in the name of the District in accordance with manufacturer's instructions.

When a student's prescribed glucagon is not available or has expired, a school nurse or delegated care aide may administer undesignated glucagon only if he or she is authorized to do so by a student's diabetes care plan.

#### Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Program Act allows a *medical cannabis infused product* to be administered to a student by one or more of the following individuals:

1. A parent/guardian of a student who is a minor who registers with the Ill. Dept. of Public Health (IDPH) as a *designated caregiver* to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a *medical cannabis infused product* to a child who is a student on the premises of his or her school or on his or her school bus if:

- a. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
  - b. Copies of the registry identification cards are provided to the District;
  - c. That student's parent/guardian completed, signed, and submitted a *School Medication Authorization Form - Medical Cannabis*; and
  - d. After administering the product to the student, the designated caregiver immediately removes it from school premises or the school bus.
2. A properly trained school nurse or administrator, who shall be allowed to administer the *medical cannabis infused product* to the student on the premises of the child's school, at a school-sponsored activity, or before/after normal school activities, including while the student is in before-school or after-school care on school-operated property or while being transported on a school bus.
  3. The student him or herself when the self-administration takes place under the direct supervision of a school nurse or administrator.

*Medical cannabis infused product* (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver, or by a school nurse or administrator, or who self-administers a product under the direct supervision of a school nurse or administrator pursuant to this policy is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

#### Void Policy

The **School District Supply of Undesignated Asthma Medication** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated asthma medication from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school asthma medication.

The **School District Supply of Undesignated Epinephrine Injectors** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine injectors.

The **School District Supply of Undesignated Opioid Antagonists** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for opioid antagonists from a health care professional who has been delegated prescriptive authority for opioid antagonists in accordance with Section 5-23 of the Substance Use Disorder Act, or (2) fill the District's prescription for undesignated school opioid antagonists.

The **School District Supply of Undesignated Glucagon** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription

for glucagon from a qualifying prescriber, or (2) fill the District's prescription for undesignated school glucagon.

The **Administration of Medical Cannabis** section of the policy is void and the District reserves the right not to implement it if the District or school is in danger of losing federal funding.

Administration of Undesignated Medication

Upon any administration of an undesignated medication permitted by State law, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Undesignated Medication Disclaimers

Upon implementation of this policy, the protections from liability and hold harmless provisions applicable under State law apply.

No one, including without limitation, parents/guardians of students, should rely on the District for the availability of undesignated medication. This policy does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

### Communicable and Chronic Infectious Disease

A student with or carrying a communicable and/or chronic infectious disease has all rights, privileges, and services provided by law and the Board's policies. The Superintendent will develop procedures to safeguard these rights while managing health and safety concerns.

### Exhibit - Placement of Students with AIDS

The following are excerpts from, "Placement of School Children with Acquired Immune Deficiency Syndrome (AIDS)," U.S. Department of Education, Office for Civil Rights:

[www.ed.gov/about/offices/list/ocr/docs/hq53e9.html](http://www.ed.gov/about/offices/list/ocr/docs/hq53e9.html).

#### OCR Policy on the School Placement of Children with AIDS

Children with AIDS are disabled persons. Section 504 prohibits discrimination against persons with disabilities in federally assisted programs such as elementary and secondary schools.

#### Where Should Children with AIDS Be Educated

Most children with AIDS can attend school in the regular classroom without restrictions. There has been no medical evidence disclosed to show that AIDS is contagious in the school setting. According to the latest medical information, there have been no reported cases of the transmission of the AIDS virus in schools. The Surgeon General and other health authorities, such as the Centers for Disease Control and the American Medical Association, have reinforced this position stating that there is no significant risk of contracting AIDS in the classroom.

If a parent or school official believes that a child with AIDS needs related services or placement outside the regular classroom, Section 504 requires an evaluation and placement process to determine the appropriate educational setting for a child with AIDS. However, a full educational evaluation is not required when neither the school officials nor parents believe that a child is in need of special education or related services.

If an evaluation is necessary, Section 504 requires the following procedures. Placement determinations are to be made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options available. The group may include the child's physician, public health personnel, the child's parent or guardian, and personnel familiar with all possible educational services. The group would draw upon information from a variety of sources, such as tests, teacher recommendations, and assessments of the child's physical condition.

In making placement decisions, the information needed by the placement team varies with the disabling condition. In the case of children with AIDS, the placement group must have the benefit of the latest reliable public health information with regard to the risks that the disease entails. This information would be considered along with information on the child's medical condition, behavior, and so forth. In each case, risks and benefits to both the infected child and others in the setting should be weighed.

#### A Child with AIDS Has a Right to Section 504 Procedural Safeguards

Section 504 requires elementary and secondary school districts to provide a free appropriate public education for disabled students that includes evaluation and placement procedures, and a system of procedural safeguards that includes notice to parents or guardians of their rights under the law, an opportunity for the child's parents or guardians to examine relevant records, an impartial hearing with an opportunity for participation by the parents or guardians and representation by counsel, and a review procedure.

A Child with AIDS Has a Right to Confidentiality

Under Section 504, singling out children with AIDS for treatment that differs from that provided to nondisabled children or children with other disabilities with respect to confidentiality would constitute different treatment on the basis of disability, and would be a violation of the regulation.

This provision would not affect State and local public health rules regarding the duty of school districts to report specified diseases to public health departments. However, when reporting any cases of AIDS to public health authorities, school districts should convey such information in a manner that respects the privacy of the individual and the confidential nature of the information, in the same way that information about other diseases is treated.

### Exhibit - Prevention of Staphylococcal Infections for Schools

The following are excerpts from *Recommendations for the Prevention of Staphylococcal Infections for Schools* and *Basic Hygiene Guidelines for the Prevention of Staphylococcal Infections in Schools*, IDPH:

[www.idph.state.il.us/health/infect/schoolstaphrecs.htm](http://www.idph.state.il.us/health/infect/schoolstaphrecs.htm).

[www.idph.state.il.us/health/infect/hygiene.htm](http://www.idph.state.il.us/health/infect/hygiene.htm).

This exhibit may be reformatted and distributed to students and their parents/guardians, faculty, and staff to inform them about what staphylococcus aureus is, how it spreads, and how staph infections can be prevented.

#### Education/Increased Awareness

Knowledge regarding precautions and preventive measures related to CA-MRSA is prudent practice. Transmission of MRSA skin and soft tissue infections among students and those who participate in competitive sports is a significant concern. All persons, especially coaches, athletic trainers, parents/guardians, and teammates, associated with the school's competitive sport activities and sport teams should engage in initiatives to increase adherence to Board policy, 7:280, *Communicable and Chronic Infectious Disease*, and procedures designed to prevent transmission of MRSA skin infections, and awareness of risk factors for infections.

All students, athletes, and their parents/guardians should also be aware of the possible risk factors for MRSA skin and soft tissue infection especially occurring among athletes:

- Physical contact/skin trauma
- Turf burns (football players)
- Contact with teammates' uncovered skin lesions
- Sharing protective equipment, clothing, or towels
- Sharing sports equipment
- Sharing personal hygiene items
- Reuse of unlaundered towels, clothing, uniforms, etc.
- Inadequate supply of dispensable or individual-use soap
- Cosmetic body shaving
- Poor personal hygiene practices, including infrequent hand washing
- Poor cleaning of locker rooms/sport rooms

In addition, since staph infections start when staph bacteria enter the body through a break in the skin, keeping skin healthy and intact is a good preventive measure. Good skin care should be encouraged among students and athletes.

#### Basic Hygiene Guidelines

##### Hand Hygiene

Students, faculty, and staff should be instructed about the correct technique for hand washing, including the importance of washing hands before eating or preparing food, after touching any skin lesions (sores) and wounds or clothing contaminated by drainage from lesions and wounds, and after using the toilet. Instructions should include the following:

- Turn on faucet and wet hands with running water.
- Apply soap and spread across all surfaces of hands.
- Scrub all surfaces of hands, including between each finger, for at least 20 seconds (saying the alphabet slowly will take at least 20 seconds).
- Rinse hands under running water.
- Dry hands with paper towels or air dryers.
- If available, use a paper towel to turn off faucet handles.

#### Hygiene

Students, faculty, and staff should be provided information about general hygienic measures, including the following:

- Keep your hands clean by washing thoroughly with soap and water. Use an alcohol hand gel when soap and water are not available.
- Avoid sharing eating and drinking utensils.
- Avoid sharing unwashed towels, washcloths, clothing, or uniforms.
- Avoid sharing personal items, e.g., deodorant, razors.
- Change socks and underwear daily.
- Wash bed linens and pajamas regularly, at least once a week if feasible.
- Wash soiled bed linens and clothes with hot water and laundry detergent. Drying clothes in a hot dryer, rather than air-drying, also helps kill bacteria in clothes.
- Bathe or shower with soap each day.
- Bathe or shower with soap after every sports practice or competition.
- Keep cuts and abrasions clean and covered with clean, dry bandages until healed.
- Follow your health care provider's instructions on proper care of wounds.
- Avoid contact with other people's wounds or material contaminated by wounds.

#### Hygiene for Sports Participants

In addition to the previously mentioned recommendations, sports participants should be provided these recommendations:

- Do not share towels, clothing, or uniforms.
- Do not store wet, dirty clothing in lockers.
- Avoid sharing personal equipment.
- Keep equipment clean. Follow coach's directions about cleaning the equipment.
- Keep cuts, abrasions, and wounds covered with clean, dry bandages. Persons with draining wounds or infections are not allowed to participate in practices or games until the wound has stopped draining.
- Report any cuts, abrasions, or wounds to the coach and school nurse.

### Food Allergy Management Program

School attendance may increase a student's risk of exposure to allergens that could trigger a food-allergic reaction. A food allergy is an adverse reaction to a food protein mediated by the immune system which immediately reacts causing the release of histamine and other inflammatory chemicals and mediators. While it is not possible for the District to completely eliminate the risks of exposure to allergens when a student is at school, a Food Allergy Management Program using a cooperative effort among students' families, staff members, and students helps the District reduce these risks and provide accommodations and proper treatment for allergic reactions.

The Superintendent or designee shall develop and implement a Food Allergy Management Program that:

1. Fully implements the following goals established in The School Code: (a) identifying students with food allergies, (b) preventing exposure to known allergens, (c) responding to allergic reactions with prompt recognition of symptoms and treatment, and (d) educating and training all staff about management of students with food allergies, including administration of medication with an auto-injector, and providing an in-service training program for staff who work with students that is conducted by a person with expertise in anaphylactic reactions and management.
2. Follows and references the applicable best practices specific to the District's needs in the joint State Board of Education and Ill. Dept. of Public Health publication *Guidelines for Managing Life-Threatening Food Allergies in Schools*, available at:  
[www.isbe.net/nutrition/pdf/food\\_allergy\\_guidelines.pdf](http://www.isbe.net/nutrition/pdf/food_allergy_guidelines.pdf).
3. Complies with State and federal law and is in alignment with Board policies.

### Suicide and Depression Awareness and Prevention

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important Board goals.

#### Suicide and Depression Awareness and Prevention Program

The Superintendent or designee shall develop, implement, and maintain a suicide and depression awareness and prevention program (Program) that advances the Board's goals of increasing awareness and prevention of depression and suicide. This program must be consistent with the requirements of *Ann Marie's Law* listed below; each listed requirement, 1-6, corresponds with the list of required policy components in the School Code Section 5/2-3.166(c)(2)-(7). The Program shall include:

1. Protocols for administering youth suicide awareness and prevention education to students and staff.
  - a. For students, implementation will incorporate Board policy 6:60, *Curriculum Content*, which implements 105 ILCS 5.2-3.139 and 105 ILCS 5/27-7 (requiring education for students to develop a sound mind and a healthy body).
  - b. For staff, implementation will incorporate Board policy 5:100, *Staff Development Program*, and teacher's institutes under 105 ILCS 5/3-14.8 (requiring coverage of the warning signs of suicidal behavior).
2. Procedures for methods of suicide prevention with the goal of early identification and referral of students possibly at risk of suicide. Implementation will incorporate:
  - a. The training required by 105 ILCS 5/10-22.39 for licensed school personnel and administrators who work with students to identify the warning signs of suicidal behavior in youth along with appropriate intervention and referral techniques, including methods of prevention, procedures for early identification, and referral of students at risk of suicide; and
  - b. Ill. State Board of Education (ISBE)-recommended guidelines and educational materials for staff training and professional development, along with ISBE-recommended resources for students containing age-appropriate educational materials on youth suicide and awareness, if available pursuant to *Ann Marie's Law* on ISBE's website.
3. Methods of intervention, including procedures that address an emotional or mental health safety plan for use during the school day and at school-sponsored events for a student identified as being at increased risk of suicide. Implementation will incorporate paragraph number 2, above, along with:
  - a. Board policy 6:65, *Student Social and Emotional Development*, implementing the goals and benchmarks of the Ill. Learning Standards and 405 ILCS 49/15(b) (requiring student social and emotional development in the District's educational program);
  - b. Board policy 6:270, *Guidance and Counseling Program*, implementing guidance and counseling program(s) for students, and 105 ILCS 5/10-22.24a and 22.24b, which allow a

qualified guidance specialist or any licensed staff member to provide school counseling services;

- c. Board policy 7:250, *Student Support Services*, implementing the Children's Mental Health Act of 2003, 405 ILCS 49/ (requiring protocols for responding to students with social, emotional, or mental health issues that impact learning ability); and
  - d. State and/or federal resources that address emotional or mental health safety plans for students who are possibly at an increased risk for suicide, if available on the ISBE's website pursuant to *Ann Marie's Law*.
4. Methods of responding to a student or staff suicide or suicide attempt. Implementation of this requirement shall incorporate building-level Student Support Committee(s) established through Board policy 7:250, *Student Support Services*.
  5. Reporting procedures. Implementation of this requirement shall incorporate Board policy 6:270, *Guidance and Counseling Program*, and Board policy 7:250, *Student Support Services*, in addition to other State and/or federal resources that address reporting procedures.
  6. A process to incorporate ISBE-recommended resources on youth suicide awareness and prevention programs, including current contact information for such programs in the District's Suicide and Depression Awareness and Prevention Program.

#### Illinois Suicide Prevention Strategic Planning Committee

The Superintendent or designee shall attempt to develop a relationship between the District and the Illinois Suicide Prevention Strategic Planning Committee, the Illinois Suicide Prevention Coalition Alliance, and/or a community mental health agency. The purpose of the relationship is to discuss how to incorporate the goals and objectives of the Illinois Suicide Prevention Strategic Plan into the District's Suicide Prevention and Depression Awareness Program.

#### Monitoring

The Board will review and update this policy pursuant to *Ann Marie's Law* and Board policy 2:240, *Board Policy Development*.

#### Information to Staff, Parents/Guardians, and Students

The Superintendent shall inform each school district employee about this policy and ensure its posting on the District's website. The Superintendent or designee shall provide a copy of this policy to the parent or legal guardian of each student enrolled in the District.

### **Student Athlete Concussions and Head Injuries**

The Superintendent or designee shall develop and implement a program to manage concussions and head injuries suffered by students. The program shall:

1. Fully implement the Youth Sports Concussion Safety Act, that provides, without limitation, each of the following:
  - a. The Board must appoint or approve member(s) of a Concussion Oversight Team for the District.
  - b. The Concussion Oversight Team shall establish each of the following based on peer-reviewed scientific evidence consistent with guidelines from the Centers for Disease Control and Prevention:
    - i. A return-to-play protocol governing a student's return to interscholastic athletics practice or competition following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise an athletic trainer or other person responsible for compliance with the return-to-play protocol.
    - ii. A return-to-learn protocol governing a student's return to the classroom following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise the person responsible for compliance with the return-to-learn protocol.
  - c. Each student and the student's parent/guardian shall be required to sign a concussion information receipt form each school year before participating in an interscholastic athletic activity.
  - d. A student shall be removed from an interscholastic athletic practice or competition immediately if any of the following individuals believes that the student sustained a concussion during the practice and/or competition: a coach, a physician, a game official, an athletic trainer, the student's parent/guardian, the student, or any other person deemed appropriate under the return-to-play protocol.
  - e. A student who was removed from interscholastic athletic practice or competition shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the return-to-play and return-to-learn protocols developed by the Concussion Oversight Team. An athletic team coach or assistant coach may not authorize a student's return-to-play or return-to-learn.
  - f. The following individuals must complete concussion training as specified in the Youth Sports Concussion Safety Act: all coaches or assistant coaches (whether volunteer or a district employee) of interscholastic athletic activities; nurses, licensed healthcare professionals or non-licensed healthcare professionals who serve on the Concussion Oversight Team (whether or not they serve on a volunteer basis); athletic trainers; game officials of interscholastic athletic activities; and physicians who serve on the Concussion Oversight Team.
  - g. The Board shall approve school-specific emergency action plans for interscholastic athletic activities to address the serious injuries and acute medical conditions in which a student's condition may deteriorate rapidly.

2. Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association (IHSA), including its *Protocol for Implementation of NFHS Sports Playing Rules for Concussion*, which includes its *Return to Play (RTP) Policy*. These specifically require that:
  - a. A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time.
  - b. A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer.
  - c. If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois, advanced practice registered nurse, physician assistant or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.
3. Require that all high school coaching personnel, including the head and assistant coaches, and athletic directors obtain online concussion certification by completing online concussion awareness training in accordance with 105 ILCS 25/1.15.
4. Require all student athletes to view the IHSA video about concussions.
5. Inform student athletes and their parent(s)/guardian(s) about this policy in the *Agreement to Participate* or other written instrument that a student athlete and his or her parent/guardian must sign before the student is allowed to participate in a practice or interscholastic competition.
6. Provide coaches and student athletes and their parent(s)/guardian(s) with educational materials from the IHSA regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.
7. Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.
8. Include a requirement for staff members to distribute the Ill. Dept. of Public Health concussion brochure to any student or the parent/guardian of a student who may have sustained a concussion, regardless of whether or not the concussion occurred while the student was participating in an interscholastic athletic activity, if available.

*[For high school districts that belong to the IHSA and have certified athletic trainers.]*

9. Include a requirement for certified athletic trainers to complete and submit a monthly report to the IHSA on student-athletes who have sustained a concussion during: 1) a school-sponsored activity overseen by the athletic trainer; or 2) a school-sponsored event of which the athletic director is made aware.

#### Student Biometric Information Collection

The Superintendent or designee may recommend a student biometric information collection system solely for the purposes of identification and fraud prevention. Such recommendation shall be consistent with budget requirements and in compliance with State law. Biometric information means any information that is collected through an identification process for individuals based on their unique behavioral or physiological characteristics, including fingerprint, hand geometry, voice, or facial recognition or iris or retinal scans.

Before collecting student biometric information, the District shall obtain written permission from the person having legal custody/parental responsibility or the student (if over the age of 18). Upon a student's 18<sup>th</sup> birthday, the District shall obtain written permission from the student to collect student biometric information. Failure to provide written consent to collect biometric information shall not be the basis for refusal of any services otherwise available to a student.

All collected biometric information shall be stored and transmitted in a manner that protects it from disclosure. Sale, lease, or other disclosure of biometric information to another person or entity is strictly prohibited.

The District will discontinue use of a student's biometric information and destroy all collected biometric information within 30 days after: (1) the student graduates or withdraws from the School District, or (2) the District receives a written request to discontinue use of biometric information from the person having legal custody/parental responsibility of the student or the student (if over the age of 18). Requests to discontinue using a student's biometric information shall be forwarded to the Superintendent or designee.

The Superintendent or designee shall develop procedures to implement this policy consistent with State and federal law.

### Use of Educational Technologies; Student Data Privacy and Security

Educational technologies used in the District shall further the objectives of the District's educational program, as set forth in Board policy 6:10, *Educational Philosophy and Objectives*, align with the curriculum criteria in policy 6:40, *Curriculum Development*, and/or support efficient District operations. The Superintendent shall ensure that the use of educational technologies in the District meets the above criteria.

The District and/or vendors under its control may need to collect and maintain data that personally identifies students in order to use certain educational technologies for the benefit of student learning or District operations.

Federal and State law govern the protection of student data, including school student records and/or *covered information*. The sale, rental, lease, or trading of any school student records or covered information by the District is prohibited. Protecting such information is important for legal compliance, District operations, and maintaining the trust of District stakeholders, including parents, students and staff.

#### Definitions

*Covered information* means personally identifiable information (PII) or information linked to PII in any media or format that is not publicly available and is any of the following: (1) created by or provided to an operator by a student or the student's parent/guardian in the course of the student's or parent/guardian's use of the operator's site, service or application; (2) created by or provided to an operator by an employee or agent of the District; or (3) gathered by an operator through the operation of its site, service, or application.

*Operators* are entities (such as educational technology vendors) that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes.

*Breach* means the unauthorized acquisition of computerized data that compromises the security, confidentiality or integrity of covered information maintained by an operator or the District.

#### Operator Contracts

The Superintendent or designee designates which District employees are authorized to enter into written agreements with operators for those contracts that do not require separate Board approval. Contracts between the Board and operators shall be entered into in accordance with State law and Board policy 4:60, *Purchases and Contracts*, and shall include any specific provisions required by State law.

#### Security Standards

The Superintendent or designee shall ensure the District implements and maintains reasonable security procedures and practices that otherwise meet or exceed industry standards designed to protect covered information from unauthorized access, destruction, use, modification, or disclosure. In the event the District receives notice from an operator of a breach or has determined a breach has occurred, the Superintendent or designee shall also ensure that the District provides any breach notifications required by State law.

### Exhibit – Student Data Privacy; Notice to Parents About Educational Technology Vendors

*Use the sample text below to provide notice to parents/guardians about educational technology vendors pursuant to the Student Online Personal Protection Act, 105 ILCS 85/28(e), added by P.A. 101-516, eff. 7-1-21. Beginning with the 2021-2022 school year, school districts must provide this notice to parents/guardians at the beginning of each school year through distribution of school handbooks or other means generally used by a district to provide such notices to parents/guardians.*

#### Annual Notice to Parents about Educational Technology Vendors Under the Student Online Personal Protection Act

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data

- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district
